## **DETAILED ACTION**

## Claim Rejections - 35 USC § 112

- 1. The following is a quotation of the second paragraph of 35 U.S.C. 112:
  - The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 2. Claim 37 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 37 it is unclear what element the "means for detachably mounting the guide to the tow vehicle is referring to". Claim 36 already "body adapted to mount the position indicating means to the trailer" and there seems to be no other disclosed mounting means.

## Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 4. The use of the phrase "adapted" has been noted in the claims. It has been held that the recitation that an element is "adapted" is not a positive limitation but only requires the ability to perform. It does not constitute a limitation in any patentable sense. In re Hutchison, 69 USPQ 138 (CCPA 1946).

5. Note the "whereby" clause in claim 37 merely recites intended use. A claim containing a

Page 3

"recitation with respect to the manner in which a claimed apparatus is intended to be employed

does not differentiate the claimed apparatus from a prior art apparatus" if the prior art apparatus

teaches all the structural limitations of the claim. Ex parte Masham, 2 USPQ2d 1647 (Bd. Pat.

App. & Inter. 1987).

6. Claims 36-37 (as understood) are rejected under 35 U.S.C. 102(b) as being anticipated by

Miller, Sr.

Miller, Sr. discloses a guide for aligning a tow vehicle with a trailer, said guide

comprising:

position indicating means 52 including a first end, a second end, and an alignment mark

54 near said second end; and a body 50 adapted to mount said position indicating means to said

trailer.

Allowable Subject Matter

7. Claims 1-35 are allowed.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's

disclosure. The cited references disclose trailer alignment devices.
